Other Waste for Recycling Pick Up:

Office Machinery (E-scrap): _____

Other Waste: _____

Special Instructions:

The marked material is to be properly identified and prepared for transportation and tender in accordance with all applicable statutes, ordinances, permits, rules and regulations of the Federal, State, and Local governments in whose jurisdiction such material originates, passes through, or is tendered for delivery (certify for declare) under penalty of perjury that the foregoing is true and correct. Do not place any extraneous material or liquids in the drum. Presence of these materials with the crushed lamp waste could result in very significant upcharges or potential return of the waste to your facility. All final counts will take place at the end destination processing facility.
